### Meeting Notes:

#### Opening

Mr. Mertic reviewed the Anti-trust notice and agenda and provided a summary of the last TAC meeting.

#### Landscape Update

Mr. Metic reviewed the Landscape asking that everyone keep their pages up to date.

There are still spots open for project sponsors.

### **TAC Business**

Super Advanced Metering Project Presentation, an open-source specification that enables customer ownership and world-wide energy ecosystem, was presented by Mr. Nigge-Uricher. Mr. van de Bogaard asked who other than Alliander is involved in the project. Mr Pope asked how this will coexist with utilities in order to access the data. Mr. Möller asked about the infrastructure and how the Germans feel about this.

A vote will be sent via email to approve the Super Advanced Metering Project Presentation.

A discussion/review of the Standards Project and Working Group Lifecycle Proposal was carried over from the previous meeting. Mr. Metric reviewed updates to the plan.

A vote will be sent via email to approve the Standards Project Lifecycle Proposal.

### **Outreach Updates**

Mr. Metric announced plans for a large momentum release featuring the new members over the last few months. The team is working on a plan on how to communicate new members going forward and this will be presented soon.

We would like members to send any project updates so we can post these in blogs, etc.

The meeting concluded with no additional updates.
