10 min	Update OpenSTEF website	Jonas	<div><div><p>OpenSTEF is a project of the European Union, funded by the European Union under the Horizon 2020 research and innovation programme. The project aims to develop a common framework for the integration of distributed energy resources (DER) into the power system, enabling a more efficient and sustainable use of the system. The project is led by the European Commission, with the participation of the following countries: France, Germany, Italy, Spain, and the United Kingdom. The project is managed by the OpenSTEF consortium, which includes the following members: EDF, E.ON, Enel, Iberdrola, and the European Commission. The project is expected to be completed by the end of 2023.</p><div></div></div></div>																																																																																																				
5min	Splitting net load into consumption and production types	Jan Maarten	Bump to next time, especially for RTE																																																																																																				

Actions:

- ☒ Jan Maarten van Doorn add Sin Yong to Leads list
- ☒ Jonas van den Bogaard add leads to Leads list
- ☒ Frank Kreuvel add leads to Leads list (work-out enexis, stediu, 'the others')
- ☐ [Frank Kreuvel](#) Confirm 13th of september review at TAC (Jonas probably not available, let's check an alternative)
- ☐ [Jonas van den Bogaard](#) share template TAC review
- ☒ Jonas van den Bogaard check if we can easily improve the project page on Ifenergy with John (something was going to come available): OpenSTEF - LF Energy
