

2022-08-08 TSC 09

Attendees:

Jonas, Frank

Discussion items

Time	Item	Who	Notes
0min	Look back on actions previous TSC	Frank	
5min	Splitting net load into consumption and production types	Jan Maarten	Bump to next time, especially for RTE

- ☒ Add presentation from last TAC on improving open source community (upgrading documentation) Jonas van den Bogaard

[Slides on Scaling up Open Source projects](#)

Actions from last TSC:

- ☐ [Frank Kreuvel](#) Confirm date of review at TAC (when Jonas available) - update, John will check for another date
- ☒ Jonas van den Bogaard share template TAC review: Technical Project Lifecycle - LF Energy - LF Energy
- ☒ Jonas van den Bogaard check if we can easily improve the project page on Ifenergy with John (something was going to come available): OpenST EF - LF Energy
