20240116_IEC_6...owerUpdate.pdf

RTE - [Jean-Etienne LEMAIRE](#)

Omicron - Fred Steinhauser

TransnetBW - Stefan Baumgartner

SprintEins - Philip Leddin

<ul style="list-style-type: none"> Companies present their concrete ideas. One year plans Time: 24 minutes average per company <p>This is a startingpoint of the roadmap discussion (Wednesday). The goal is just to present the concrete plans for the coming year (including high level Non-functional requirements). A sneak peak into the further is welcome (high level).</p>	
Code Quality (4:15 PM — 4:45 PM) <p>pascal wilbrink</p> <ul style="list-style-type: none"> Pascal dives into code quality 	
Reflection and Planning (4:45 PM — 5:00 PM) ben van 't ende <ul style="list-style-type: none"> Closing remarks and reminders for the following day's agenda. 	

Day 2 (Wednesday, Jan 24): Future Direction and Culture	
Morning Session:	
Main Room	Nerd Room
Arrival and coffee (8:30 AM - 9:00 AM)	
Review and Feedback (9:00 AM — 9:30 AM) ben van 't ende maybe to much repeat <ul style="list-style-type: none"> Quick recap of the previous day's achievements. Feedback session for participants to share their thoughts on the event so far. 	
Project Roadmap (9:30 PM — 10:30 PM) Combined with next (<i>Sander talks to colleague</i>) Roadmap discussion <ul style="list-style-type: none"> What is missing beside the company plans (presented yesterday)? Maintenance? Technical improvements? <ul style="list-style-type: none"> Mentimeter? <ul style="list-style-type: none"> Group work (Where do we overlap?) <ul style="list-style-type: none"> sticky excercise? Mural? Estimate effort <ul style="list-style-type: none"> Mural? Menti-meter (T-shirt size: XXS XS S M L XL XXL) Dependencies / Prerequisites 	
Roadmap execution (11:00 PM — 12:30 PM) Sander Jansen <ul style="list-style-type: none"> How can we collaborate to implement the roadmap? Who takes the lead on what workpackage /maintainers roles? 	

Lunch Break (12:30 PM — 2:00 PM)

Afternoon Session:

Project Refinement (2:00 PM — 2:30 PM) aliou.diaite@rte-france.com Sander Jansen

TSC meetings. Improve collaboration. Right attribute. Lacking skills?

Speedboat one hour

Make an agenda. Let's dive into ideas

- Teams resume work on their projects, incorporating feedback and making necessary refinements.
 - Way of working: How to keep track open source work that needs to be done
 - Analyze how to reach the next level on the SSF badge
 - Documentation refinement: See [34th meeting \(December 13\) - CoMPAS - LF Energy](#) for ideas

Thomas Strerkx presentation (2:30 - 3:30)

Continue project refinement (3:30 - 4:30 PM)

Closing (4:30 PM — 5:00 PM) [ben van 't ende](#)

- Final remarks from organizers, expressing gratitude to participants and sponsors.
- Networking opportunities and exchange of contact information for continued collaboration.
- Farewell and safe travels to all participants.
